Architectural Drawing

New Approach to Teaching Architectural Drafting, Arthur W. Earl, 30 (April)
What Should We Teach Architectural Draftsmen?, Conrad H. Stieber, 34 (October)

Arts and Crafts

Art of Pictorial Marquetry, Lester G. Duenk, 69 (May)
Expanding Plastic — New Twist in Casting, Roy Leighton, 52 (April)
Hand Carved Chip and Dip Trays, Lester Duenk, 46 (December)

Audio-Visual Aids

How to Plan a Drafting and Design Reference Library, Gary G. Thompson, 42 (October)
Multimedia Presents . . . , Donald P. Lauda, 36 (December)
Planning Audio-Visual Facilities for Technical Teaching, David P. Barnard and A. C. Lynn Zelmer, 39 (March)

Automation

Automation in Transition, Verne C. Fryklund, 28 (April)

Auto Mechanics

Adapt Your Floor Jack for Automatic Transmission Work, R. W. Magginetti, 43 (January)
Automotive Chart Stand, Bud Kurth, 58 (September)
Mobile Hydraulic Engine Hoist, A, Tom Reese and Harold McConnell, 81 (March)
Portable Car Ramp, R. L. Grandle and Gordon Knuth, 47 (November)
Production Based Evaluation, E. L. Harder, 62 (April)

Blueprint Reading

Why Not More Blueprint Reading in the High School?, A. G. Ochs, 54 (September)

Carpentry

Rafter Layout: Roof Pitch Triangle Method, K. T. Olsen, 48 (October)

Ceramics

Marble on the Mountain, Richard A. Swanson, 58 (October)
New Offerings in Plastics Technology, Maurice Kerouack, 46 (January)
Recipe Retainer, Stan Schirmacher, 57 (April)

Communications

One Set of Dull Tools, Richard E. Stockwell, 62 (December)

Course Planning

Modular Schedule of Industrial Arts, The, Warren Sorenson, 70 (March)

Curriculum

How Much Space in Your IA-Tech Programs, George H. Ditlow, 22 (November)

Design and Drafting (Architectural and Mechanical)

Adapting Programed Instruction into Drafting, John R. Beck, 41 (April)
College Drafting Student: Helped or Hindered by High School Drawing?, J. Hatley, 41 (February)
Design, A Conceptual Approach, William R. Forkner, 30 (November)
Design: Art and Engineering, James E. Seitz, 32 (May)
Design for Understanding, Jerry Streichler, 35 (February)
Displaying Drafting Tools, M. M. Montz, 81 (September)
Looking for Design Solutions in Elementary Industrial Arts, Jerry Streichler and John Lupo, 46 (October)
New Ink Lettering Technique, A, Maurice Thomas and Gary H. Winegar, 57 (May)
New Life for Old Triangles, Charles H. Peteshel, 84 (May)
Perspective Shadow Teaching Aid, Darrell L. Smith, 38 (December)
Presenting A Conventional Drawing Concept in 35mm. Slides, Harry L. Hess and David James, 51 (November)
Proven Method of Measuring Angles, A, C. B. Daly, 69 (November)
Put the Air to Your Drafting Program, William E. Laymon, 46 (September)
Redesigning the Monthly Calendar, J. Hamilton Bailey, 44 (January)
Solving Instrument Storage Problem, Don R. Pangborn, 72 (October)
Teaching Beginning Drafting, Robert E. Blum, Don R. Pangborn, Ronald Bro, and Eugene M. Schanbacher, 36 (April)
Teaching Dry Wash Architectural Rendering to High School Drafting Students, Dennis C. Nystrom, 33 (April)
Waste Container, Lyman Warnock and Ward Taylor, 46 (February)
What's Good in the Drafting Room?, Lawrence S. Wright, 76 (April)

Editorials

Future of Graphic Arts, The, 23 (December)
Individual in Industrial Arts, The, 25 (September)
Industrial Arts and Space Technology, 25 (February)
Industrial Arts and/or Vocational Education at the Junior High School, 31 (May)
Industrial Arts Needs at the Federal Level, 23 (October)
Inflation and Vocational Education, 27 (April)
Our Vanishing Supply of Walnut, 29 (November)

Outsider Looks at Guidance Counselors, An, 21 (June)
Planning Vocational-Technical Education Facilities, 21 (January)
Tomorrow's Equipment Today, 35 (March)

Electricity-Electronics

Circuit Action Demonstrator, Michael Dunklebarger, 76 (May)
Computer Concepts — An Experimental Electronics Curriculum, Larry Heath, 66 (May)
Electricity-Electronics Equipment List, Rex Miller, Emil Hoch, Clarence A. Cook, and William C. Hoefert, 120 (March)
Electricity Shop Color Codes, Neal C. Dunn, 72 (October)
Electromagnetic Box, The, Eldon E. Patterson, 54 (February)
Ground Testing Equipment in the Electricity-Electronics Shop, G. H. Lyle, 80 (March)
Hertz Unit Replaces "Cycles Per Second," Jerold J. Simons, 144 (March)
Industrial Electricity in Industrial Arts, William A. Kavanaugh, Milo Sulentic, Arthur A. Jersild, Howard Gerrish, Terence Trudeau, F. P. Bushman, Waldermar E. Klammer, 42 (May)
Low Cost Manual and Electric Coil-Winder, Jerold J. Simons, 74 (May)
Low-Cost Patch Board for Electronics Breadboarding, Jerold J. Simons, 39 (October)
Motor Repair Hint, Harry J. Miller, 136 (March)
Oscilloscope Demonstrator, Jerold J. Simons, 48 (April)
Photoelectric Switch, Jerold J. Simons, 43 (December)
Portable Wiring Mock-up, G. Edward McIlhenny, 65 (May)
Power Supply Demonstrator, The, John I. Matthews, 60 (November)
Replacement of Fuses, Gerald F. Brunner, 60 (December)
Research in the Area of Electricity-Electronics, G. E. Baker, Charles A. Schuler, and Richard J. Fowler, 54 (December)
Shocking Problem, The, Stanley Clark, 70 (October)
Sight of Music, The, Alton E. Glazier, 64 (May)
Testing Armatures for Short Circuits, Harry J. Miller, 71 (October)
Transistor Radio Battery Eliminator, G. E. Baker and C. A. Schuler, 38 (September)
Transistors, John F. Van Derslice, 48 (January)
Unit in Manufacturing Culminates Beginning E–E Course, Dean Teel, 50 (February)
VTVM and VOM Demonstrators, Jerold J. Simons, 52 (May)

Federal Aid

How's Your Grantsmanship?, S. Francis Overlan, 26 (October)
How to Apply for Research Funds, Howard S. Smith, 33 (October)
Principal Had an Idea, The, (Interview with Charles Jacquith and Robert Baetz), Howard S. Smith 30 (October)
Selected Sources of Federal Funds for Industrial Arts (chart), Howard S. Smith, 29 (October)

Foundry

Beginning Foundry Project, George S. Peltier, 140 (March)
Carbon Arc Soldering Tool, Harry J. Miller, 60 (December)
Expanded Plastic — New Twist in Casting, Roy Leighton, 52 (April)
Foundry Molding Sand Mixer, Harvey D. Miner, 74 (March)
Inexpensive Foundry Tool, Robert Fox, 139 (March)
Magnetic Check for Tempering Steel, Stanley Clark, 85 (September)
Mending Nichrome Elements, Stanley Clark, 71 (October)
Rustic Door Knocker, Harry L. Hess, 50 (October)

General Shop and Home Mechanics

Cleanup Bell, Ralph C. Mayo, 60 (January)
Colors Do A Lot, J. Russell Kruppa, 66 (October)
Flaw-Detecting Magnifier, Harry J. Miller, 62 (June)
Free-Standing Toolrack, Harry J. Miller, 88 (April)
General Shop Air Compressor, The, H. Muller, 136 (March)
Holder for Allen Wrenches, A, Al Fisk, 75 (October)
Images Traced Flat, H. Josephs, 57 (January)
No Mechanical Fasteners Needed, Charles L. Honeywell, 50 (November)
Non-Tip Base, H. Josephs, 61 (January)
Picture Lectures or How to Frame Your Students, Rolf W. Beutlich, 134 (March)
Reduce Broken Taps, Robert Fox, 139 (March)
Repair Crinkle Finishes, H. Josephs, 60 (January)
Shop Tips, Harvey Muller, 57 (January)
Shower Clip for Extension Cords, H. Muller, 70 (October)
Stabilize the Oil Can, H. Muller, 140 (March)
Suggestion Box for Students, Edward B. Ray, 75 (October)
Totem Pole, Ralph C. Mayo, 139 (March)
Try Pneumatic Air Tools in Your Shop, Ned Frisbie, 94 (March)
Utilizing Wasted Space, Arthur W. Gilliam, 61 (January)

Graphic Arts

Basic Visual Aids for Graphic Arts, Gerald A. Silver, 89 (March)
Comprehensive Graphic Arts Program, Technical and Vocational, A, Paul R. Gillespie, 30 (December)
Course Outline Series for Modern Graphic Arts, Gerald A. Silver, 54 (January), 98 (March), 53 (April), 71 (May), 64 (October), 26 (November), 35 (December)
Graphic Arts Curriculum in the High School, The, Robert F. Papas, 27 (December)
Graphic Arts in the High School, William R. Hoots, Jr., 24 (December)
Keep Paper Cutter Sharp, Stanley Clark, 140 (March)
Paste Pot, Camera and Electronics, Philip J. Varker, 18 (May)
Practical Tests for Measuring the Weight of Paper, David Vequist, 50 (September)
Printing at "Penta," Gerald A. Bryant, 34 (December)
Salvage the Silk Screen, H. Muller, 136 (March)
Save Lock-up Time, Peter M. Commanday, 62 (June)
Swami Crystal Ball Weather Forecaster, John M. Fontana, 60 (October)
Wallet-Size Identification Cards, Robert M. Nogueira, 62 (November)

Industrial Education (Industrial Arts, Industrial-Vocational and Technical Education)

American Industrial Arts Program, The, Gerald Haunton, 28 (June)
Conceptual Framework for Industrial Arts and Vocational Education, Albert J. Pautler, 70 (November)
Definitions for Industrial Arts, Marshall L. Schmitt and W. Dale Chambers, 100 (March)
Elementary School Industrial Technology Program, Arthur W. Earl, 32 (November)
Elements of Industry — An Experimental Course, Fred S. Faiks, Wally F. Fillingham, and Ken F. Homrich, 33 (January)
High School Industrial Arts Teachers' Problems (Survey), 30 (September)
Industrial Arts and the Space Age, Harold E. Mehrens, Jr., 26 (February)
Insider Replies, An, John R. Lindbeck, 29 (June)
Involving Industry in Local Vocational and Technical Education, Samuel M. Burt, 28 (January)
Let's Start Three Fires in Industrial Arts, Joseph A. Schad, 22 (June)
New Year's Resolutions for Industrial Arts Teachers, Denis J. Kigin, 22 (January)
Organizing Your Shop for the School Year, George W. Bernhardy, 26 (September)
Program Coordination — A District's Plan, Glenn D. Warrick, 26 (June)
Trade Teachers: Recruitment and Training, Benjamin J. Stern, 44 (June)
Trends in Vocational Technical Education and How to Plan Facilities for Them, Clayton E. Farnsworth, 23 (January)

Machine Shop

Broken Bits to Routing, Wilbert R. Ball, 80 (September)
Centrifugal Casting Machine, Clifford L. Yard, 43 (February)
Drilling Stainless Steel, H. Mullen, 69 (November)
Hint for the Machine Shop, A, H. Josephs, 84 (May)
Introduction to Cutting Fluids and Coolants, Emmett Mason, 50 (January)
Let's Talk Tooling, Cortland C. Doan, 36 (October)
Machine Shop Short Cuts, H. Miller, 136 (March)
Machining Spheres Freehand, Donald Greenfield, 46 (April)
Preventing Tap Breakage, H. Josephs, 136 (March)
Rubber Silencers, Harvey Muller, 71 (October)
Wall Sconce, Michael Prevoznik, 60 (May)

Mass Production

Operation Process Chart — Tool for Mass Production, Robert E. Magowan, 62 (May)
Unit in Manufacturing Culminates Beginning E-E Course, Dean Teel, 50 (February)

Materials Testing

Building A Tensile Strength Comparator, Fred W. Schultz, 44 (September)
Experiment with Oil Oxidation, Jerold J. Simons, 56 (September)

Metalwork

Achievement Test for Ninth Grade Metalwork, Warden B. Muller, 50 (December)
Application of Fluid Power for Education, An, Don M. Betts, 38 (October)
Building an Internal Combustion Engine, Michael R. Seal, 54 (November), 40 (December)
Charcoal Testing, Marshall S. Hahn, 38 (January)
Chow Chime, The, David P. Peterson, 41 (October)
Desk Book or Record Holder, Lowell Kage, 56 (November)
Desk Caddy, Robert J. Gelina, 62 (October)
Drinking "Glass" Mold for Expandable Styrene Beads, Robert O. Peterson and Donald L. Kluck, 58 (November)
Explosive Metal Forming in the Classroom, Frank P. Accurso, 44 (October)
Ferro-Tic C for a Dead Center, Don L. Jackson, 63 (November)
Firearm Blueing, Don Schmeckpeper, 44 (December)
First Metal Project, The, Harry Bedman, 48 (December)
Ground Quiver, Patrick Spielman, 45 (January)
Large Group Instruction in Metals, Theodore E. Wiehe, 31 (January)
Making a Lathe Center, John J. Donlan, 82 (September)
Planter Scale, Joseph Wm. Daniele, 48 (May)
Reverse Engineering Leads to Creativity, Austin E. Lucero, 42 (September)
Rustic Door Knocker, Harry L. Hess, 50 (October)
Small Mechanic's Tool Box, Walter H. Harrington, 72 (May)
Small-Oriented Unit in Metals, Committee under Dr. John L. Feirer, 28 (February)
Tap Holder for Large Taps, Robert Fox, 61 (December)
Welded Jack Stands, L. William Schotta, 48 (February)
Work Support, James A. Sullivan, 45 (April)

Power Mechanics

Application of Fluid Power for Education, An, Don M. Betts, 38 (October)
Building an Internal Combustion Engine, Michael R. Seal, 54 (November), 40 (December)
Planning an Area in Power Mechanics for the Junior High School, Terence Trudeau, 50 (March)
Preparing Teachers for Fluid Power Education, William D. Wolansky, 52 (June)
Teach Model Rocketry — Safely, Terence J. Trudeau, 32 (February), 66 (April)

Programed Instruction

Adapting Programed Instruction into Drafting, John R. Beck, 41 (April)
Delimiting a Discipline in Part, Dean Teel, 35 (September)

Related

Delimiting a Discipline in Part, Dean Teel, 35 (September)
Elements of Industry — An Experimental Course,

Fred S. Faiks, Wally F. Fillingham, and Ken F. Homrich, 33 (January)
Underestimated Quarter, The, Glen O. Fuglsby, 133 (March)

Research

How to Apply for Research Funds, Howard S. Smith, 33 (October)
Principal Had an Idea, (Interview with Charles Jacquith and Robert Baetz), Howard S. Smith, 30 (October)
Summer Study on Occupational, Vocational, and Technical Education, The, William P. Spence, 63 (September)

Safety

Another Look at Eye Protection, Jess Rathbun, 78 (March)
Make Safer Cross Cuts on Your Radial Arm Saw, John P. Sellarole, 77 (March)
Safety Switch for Shop Equipment, David A. Robinson, 93 (March)
Volatile Liquid Combustion Chamber, Lyndall L. Lundy, 48 (September)

Shop Facilities

Challenge to Reality, James A. Herman, 68 (March)
Industrial Arts Facilities at California State College, Lonk Beach, C. Thomas Dean, 63 (March)
Tulsa's East Central Senior High Has Industrial Arts "In the Round," M. J. Ruley, 60 (March)

Shop Management

Another Project File System, E. Max Hunter, 88 (March)
Do Your Students' Projects Have Blue Collars?, Philip D. Wynn, 72 (March)
Odds and Ends Rack, Ira Learned, 73 (March)
Quick Clean-Up Chart, E. E. Gumtow, 75 (March)
Safety Switch for Shop Eqiupment, David A. Robinson, 93 (March)

Shop Planning

Check Out *Your* Shop Planning!, Herbert M. Brant, 36 (March)
Cooperative Vocational Education Space Needs, Ralph O. Gallington, 47 (March)
Educational Specifications — What Are They?, Edward A. Campbell, 54 (March)
Facility Design Considerations, William W. Chase, 56 (March)
Let's Hire an Architect, Edward A. Campbell, 26 (January)
New Dimension in Flexibility — Putting Industrial Arts on Wheels, Walter L. Schwaar, 43 (March)
Planning an Area in Power Mechanics for the Junior High School, Terence Trudeau, 50 (March)
Planning Audio-Visual Facilities for Technical Teaching, David P. Barnard and A. C. Lynn Zelmer, 39 (March)

Space Technology

Industrial Arts and the Space Age, Harold E. Mehrens, Jr., 26 (February)
Space-Oriented Unit in Metals, Committee under Dr. John L. Feirer, 28 (February)

Special Education

Guide for Teaching the Blind, A, J. Kirk Walter, 55 (February)
Industrial Arts for the Disadvantaged, Robert Mendelson and John Hines, 36 (May)

Storage

Shop Space Saver, H. Muller, 140 (March)
Solving Instrument Storage Problem, Don R. Pangborn, 72 (October)
Storage for Soldering Guns and Pencils, Waldemar E. Klammer, 76 (March)

Supervision

When a Boy Needs Help, Jack Down, 40 (May)

Teacher Education

Accreditation of Undergraduate Programs in Industrial Arts, The, William R. Biggam, 39 (June)
Micro-Teaching — New Tool for a New Program, Lorry K. Sedgwick and Harlyn T. Misfeldt, 34 (June)
Preparing Teachers for Fluid Power Education, William D. Wolansky, 52 (June)
Some Guidelines for Student Teaching, William T. Vassalotti, 84 (October)
Video Recordings Implement Teaching, C. A. Tucker, 37 (June)

Teacher Recruitment

Accreditation of Undegraduate Programs in Industrial Arts, The, William R. Biggam, 39 (June)
Recruiting Methods Industrial Arts Uses, William P. Spence, 48 (June)
Trade Teachers: Recruitment and Training, Benjamin J. Stern, 44 (June)
Video-Tape New Life Into Your Recruitment Program, William J. Weaver, 36 (June)
Wanted: Industrial Arts Teachers, Ralph Ressler, 46 (June)

Teaching Aids and Methods

Do Your Students Learn — or Memorize?, M. James Benson, 24 (October)
Instructional Television in Service Technical Schools, Bernard Dutton, 71 (September)
It's Feeding Time at the Zoo, Vernon Phillips, 79 (May)
Large Group Instruction in Metals, Theodore E. Wiehe, 31 (January)
Multimedia Presents . . . , Donald P. Lauda, 36 (December)
Presenting a Conventional Drawing Concept in 35mm. Slides, Harry L. Hess and David James, 51 (November)
Teacher's Desk — Its Use and Placement, Homer L. Horton, 82 (May)
Teaching Machine, The, Rolf W. Beutlich, 53 (December)
Teaching the Design Concept with the Use of Visuals, Gilbert Schwartz and Harrison Goodall, 40 (January)

Technical Education

Nova's Technical Science Program, Arthur B. Wolfe, 31 (June)

Television

Instructional Television in Service Technical Schools, Bernard Dutton, 71 (September)

Testing and Tests

Achievement Test for Ninth Grade Metalwork, Warden B. Muller, 50 (December)

Visual Aids

Experimental Comparison of Projection Screens, An, George V. Nichols and David A. James, 44 (November)
Perspective Shadow Teaching Aid, Darrell L. Smith, 38 (December)
Teaching the Design Concept with the Use of Visuals, Gilbert Schwartz and Harrison Goodall, 40 (January)

Vocational Education

(See Industrial Education)

Vocational Guidance

When a Boy Needs Help, Jack Down, 40 (May)

Welding

Filter Lens in Welding Helmet, H. Josephs, 84 (May)
How Good is a "Good" Weld?, Hubert A. Smith, 60 (September)
Lamppost Sign, Warden B. Muller, 60 (December)
Rack for Welding Tips, Stanley Clark, 57 (January)
Safe Arc Welding Booth, A, Edison F. Clark and David H. Reeves, 84 (March)
Welded Jack Stands, L. William Schotta, 48 (February)

Woodworking (Patternmaking, Turning, Cabinetmaking, Carpentry, Woodfinishing)

Angle Clamp, Robert E. Adkins, 85 (September)
Bent-Wood Laminating: A Paper Tray, Loren Martin, 48 (November)
Butter Container, Vernon H. Isom, 49 (February)
Care of Brushes, Dale T. Lervik, 60 (June)
Cleaning Wood Files and Rasps in a Junior High School Wood Shop, William T. Vassalotti, 132 (March)
Contemporary Geese, Donald H. Mankamyer, 54 (May)
Contemporary Walnut Chest, Wallace L. Johnston, 49 (May)
Cove Scraper, James A. Sullivan, 62 (June)
Current Trends in Wood Finishing, Glen O. Fuglsby, 42 (November)
Different Type Wood Project, A, R. A. Fisher and Leon DeWald, 54 (April)
Eliminate Drill Slippage, Robert Fox, 45 (April)
Eliminating Waste of Wipe-On Finish, James L. Fish, 134 (March)
Game Boards: An Answer to a Problem, William E. Larson, 46 (May)
Hand Carved Chip and Dip Trays, Lester Duenk, 46 (December)
How Up-to-Date Are Your Adhesive Techniques?, Gerald Cheek, 40 (November)
Introduce Music in Your Shop!, Lester G. Duenk, 36 (January)
Laminated Clock, Floyd E. Krubeck and Bryan Bachkora, 52 (February)
Laminated Ukulele, Robert Irving, 50 (April)
Lumber Chart, Donald C. Verhotz, 88 (April)
Modern Laminating and Veneering, Patrick E. Spielman, 35 (November)
Modern Style Lamp, Lynn Mickelson, 55 (September)
Molds for Wood Lamination, Robert E. Magowan, 36 (September)
No Mechanical Fasteners Needed, Charles L. Honeywell, 50 (November)
Stacking Bowls, Vernon H. Isom, 40 (September)
Stave Construction, Vernon H. Isom, 44 (April)
Teaching Aid for Threaded Fasteners, Charles H. Peteshel, 132 (March)
Three-Legged Stool, Dennis Herschbach, 60 (April)
Two Lathe Dogs, Stanley Clark, 60 (January)
Underestimated Quarter, The, Glen O. Fuglsby, 133 (March)
Using Infrared in Wood Finishing, Donaid J. Jambro, 40 (October)
Wall Sconce, Michael Prevoznik, 60 (May)
Wood Sample and Stain Chart, Donald P. Strobl, 49 (December)
